

AMOL WABALE

Senior Engineering Lead

+91-9595519028 | a.m.wabale@gmail.com | linkedin.com/in/amolwabale | Pune, MH, India

SUMMARY

Result driven Full-Stack Technical Leader with over 10+ years of experience in designing, developing, and delivering scalable, secure, and high-performance software solutions. Adept in building customer-centric applications using cloud, .NET Core, C#, Angular, React, and SQL. Demonstrated ability in managing cross-functional teams, aligning product vision with technical strategy, and driving innovation. Hands-on experience with API development, cloud integrations (AWS), CI/CD automation, and advanced analytics workflows. Proven expertise in Agile development, product roadmap planning, and stakeholder communication. Strong problem solver with a passion for technical mentoring and continuous learning. Certified Scrum Master and AWS Solutions Architect.

KEY SKILLS

- **Technologies:** C#, .NET Core, ASP.NET MVC, SQL, REST APIs, LINQ, Entity Framework, Angular, React, Python, Azure, ADO.Net, IIS.
- **Software Engineering:** Scalable Architecture, Secure Coding Practices, Unit Testing, Integration Testing, Performance Optimization.
- **Tools & Platforms:** Visual Studio, SSMS, SVN, JIRA, Postman, Code Collaborator, Dynatrace, New Relic, Data dog, SQL Century.
- **DevOps & CI/CD:** Automated Deployment, TeamCity, Jenkins.
- **Leadership:** Team Mentoring, Agile Coaching, Sprint & Release Planning, Risk Management, Stakeholder alignment, Product Roadmap.

KEY ACHIEVEMENTS

- **Built and Scaled Cross-Functional Agile Teams:**
Mentored and managed 3 engineering teams (12 members), boosting project velocity by 50% and enhancing delivery quality.
- **Analytics Dashboard for Incentive Optimization:**
Led implementation of a scenario summary dashboard providing real-time KPIs, helping clients make data-driven compensation decisions.
- **Product Integrations & Data Exchange Automation:**
Developed APIs and connectors for SFTP, AWS S3, enabling automated data ingestion and report generation with 35% reduced manual effort.
- **AWS-Based Live Data Analysis:**
Designed an analytics solution integrating S3, Lambda, Glue, Athena—empowering customers with real-time data insights for operational decisions.
- **Technical Uplift & Modernization:**
Orchestrated .NET Framework upgrade for 6 products and migrated production environments from Windows Server 2012 to 2019 to ensure supportability and improved performance.
- **Enhanced Observability & T3 Support:**
Reduced incident investigation time by 40% by introducing detailed application logging.

WORK EXPERIENCE

Senior Tech Lead

LTIMindtree | 2021 - Present (Working with ZS Associates, Product based company)

Projects: Javelin Incentive Manager, Call Plan Manager, Compensation Reports, Territory Designer, Communication Manager, Application Catalyst

- **Spearheaded Three engineering teams of 12 members**, ensuring adherence to coding standards, optimized design approaches, accurate estimates, and standard development practices.
- Led the development of scalable software solutions across 5+ projects, ensuring adherence to performance, maintainability, and security standards and customer-centric product development..
- Delivered end-to-end architecture and implementation for full-stack applications leveraging Angular, React, .NET Core, SQL.
- Partnered with product team for **feature refinements, release scoping, Release planning and sprint planning**.
- Fostered collaboration among cross-functional teams to align technical strategies with business objectives.
- Built front-end components using **Angular and React** to enhance user experience and reduce load times.
- Championed secure coding practices, integrating industry standards to safeguard sensitive data.
- Mentored and guided teams, promoting technical excellence and knowledge sharing.
- Played a key role in setting technical direction, aligning engineering output to product vision, and reporting to senior stakeholders.
- Facilitated sprint planning, backlog grooming, and retrospectives; drove continuous delivery improvements.
- Achieved a 35% reduction in clients' manual operations and fully eliminated AWS S3 costs by **developing APIs for data exchange** and triggering application functionalities.
- Reduced the investigation time of T3 Support by 40% by implementing **detailed logging** in the app.
- Helped the client team make data-driven decisions by implementing an analysis web application with live **integration with AWS S3, Lambda, Crawler, Glue Data Catalog, and Athena**.
- Led software development for high-volume platforms, focusing on clean, iterative code and reusable design patterns.
- Provided 3rd level support to client team for investigating and resolving issues.

Tech Lead

Cuelogic Technologies (now LTIMindtree) | 2018 – 2021

Projects: Javelin Incentive Manager (JIM), Javelin Call Plan Manager (JCPM)

- Managed full-stack development team of 8 members building modular and scalable applications.
- Delivered reusable front-end components using Angular and integrated with .NET backend APIs.
- Implemented CI/CD pipelines, automated testing, and release automation to speed up delivery cycles.
- Led product enhancements improving analytics and reporting efficiency for end-users.

Software Engineer

Softlink International | 2015 - 2017

Projects: NCDR Registry Suite, Draeger Reporting Tool

- Designed and developed end-to-end product features as a full-stack engineer. Coordinated with product owners for requirement gathering and deployment on AWS.
- Developed business logic, UI, APIs, and 3rd-party integrations, ensuring automated deployment for clients.
- Implemented scalable and maintainable code, adhering to secure coding practices and automated testing standards.

EDUCATION

- Bachelor's Degree in E&TC | Maharashtra Institute of Technology | Pune, MH, India | 2012 - 2015
- Diploma in E&TC | Pimpri Chinchwad Polytechnic | Pune, MH, India | 2009 – 2012

CERTIFICATIONS

- Certified Scrum Master | SCRUM Alliance
- AWS Solutions Architect | Amazon Web Services
- Associate AWS Cloud Practitioner | Amazon Web Services
